

Natural Beauties Basketry, Glass, Gourds, Pottery, and Wood

Exhibit on view May 21 - July 5, 2019

Natural Beauties shows objects made primarily from natural materials. Artists working in clay, gourds, wood, and glass have created both functional and decorative items.

While some art forms remain traditional, many artists have given these natural materials a decidedly different twist. Some potters make whimsical vases using non-traditional forms and others use ancient glazing techniques that look like they were found in an archaeological dig. There is something special and unique about every object as it relates to something made from the earth.
