Class Description: This course will introduce the beginner to the exciting versatility of soft pastels in creating a pastel painting. Each attendee will have the chance to use various papers, and pastels. They will be introduced to how they can use pastels to create a watercolor-like painting. We will be making thumbnail sketches using less quality pastel papers. Each student will receive a 64-color box of vibrant small square pastels as part of the package.

Students will learn the following:

- how to make an underpainting using alcohol and/or water washes highlighting the dark, mid, and light tones.
- learn difference between hard pastels and soft pastels in hands on process
- learn the differences among different papers such as Uart, Pastelmat, Mi-Tientes Touch and Colour Fix. We will be using less quality pastel papers i.e., Strathmore to create thumbnail sketches prior to actual painting.
- learn different ways and when to blend their pastel applications and the possible objects to use when blending
- learn difference between a hard mark, a soft mark, and a broken mark
- learn how to paint a simple fruit i.e., Pear, Apple, or Orange combined
- learn how to paint a simple landscape
- learn how compatible this medium is with watercolor and colored pencils
