

One Day Plein Air Workshop In Union, SC Taught By Todd Baxter

If you've wanted to give plein air painting a try or have limited experience, this is the workshop for you. Painting in the great outdoors is very different from using photos in the comfort of your home or studio. Be brave, step up and give it a try. Remember you will be among friends, but be careful you could become addicted to plein air painting. I will be working in oils, but you can work in the medium of your choice.
